

## Personal.

W. A. Pippin has given up the ice business.

All the lawyers are at Vernon again this week.

The county commissioners were in session Monday.

Chas. Douglass has purchased the livery business of R. U. Harrell.

Quite a severe electrical storm passed over Chipley Monday afternoon.

The county board of public instruction held its usual monthly meeting Monday.

Watermelons from the southern part of the State are passing this way nearly every day.

We are told that the circuit court had a very strenuous (?) time of it last week; one case was tried.

The weather conditions are now such that the straw hat market is firmer and the demand increasing.

Monday was legal sale day and tax collector W. B. Gainer sold the property advertised for delinquent taxes.

If you are not a good roads enthusiast take a trip over the road from Chipley to Vernon and it will put you right.

The numerous friends of Emmett Wilson of Pensacola, congratulate him upon his appointment as State Attorney for the first judicial circuit.

If you take a vacation this summer, why not spend it at some point on St. Andrews Bay, in Washington county? There are no more pleasant resorts in the whole country.

No man impresses us with his importance by simply screwing on a long face and assuming a dignified manner. Owls, also, have somehow acquired the habit of looking wise.

The farmer who fails to produce his own supplies has missed his calling, and should quit farming and go to digging bait for the first industrious fisherman who will hire him.

The Atlanta Journal wants to know where that old relic, the blue back spelling book, is. It lingers with us only as a subject to be enquired about by those who like to think of old days occasionally.

Who can produce the greatest yield of sweet potatoes in Washington county this year? The Florida Experiment Station at Gainesville has grown 625 bushels per acre. There is always a good demand for this toothsome product.

The pathway of life is strewn with wrecks. You are always in more danger, however, while standing still than you will be run over, than in keeping well up at the head of the procession, where you cannot be stepped on or have your wheels locked.

The West Florida Business College, Chipley, Fla., offers a rare opportunity to get a business education at home. Prof. Anderson has had long experience and is strongly endorsed. He gives reasonable cash rates, by the month, or term; also six to twelve months credit.

A bad road is likened unto a pocketbook and a good road to a bank account that draws interest and constantly increases in size. The state of the roads affects the farmer more than any other class and the farmer should stand for good roads, while the town should help him bear the burden of construction.

Ever meet the man who says: Business dull, isn't it? Is it hot enough for you? Let's have something cool, hey? This will be the hottest summer on record.

Your sweetheart may go back on you, your bosom friends may desert you, your wife and children may give you the frozen face, but the sympathetic and amiable house fly stays with you and sticketh closer than a brother.

DIED. Mrs. M. J. Nepper, one of the pioneer residents of Chipley, after an illness covering many months, died at her home here Monday afternoon; the funeral held Tuesday morning. The Banner joins other friends in tendering sympathy in this sad hour to her son and daughter, James D. and Miss Mattie Nepper.

The business college of Prof. G. V. Anderson is now in full operation. The establishment of this school here opens an opportunity for the young people of this section to secure a business education with but comparatively little expense. The people of our town should lend assistance to this enterprise, and thus insure its permanency.

A most unfortunate accident which came near resulting fatally, happened near Vernon Monday morning, when a mule hitched to a wagon became frightened and ran away. In the wagon were two ladies and a little child; the mule ran into a fence and the occupants of the wagon were thrown out; one of the ladies was considerably bruised about the head and shoulder, while the little child had some ribs broken and was otherwise injured.

Bernard Langston, who has been a student at the University of Florida for the past four years returned home last Thursday. Besides graduating with honors at the commencement of that institution last week, he also won the medal offered by the Board of Control, for the best oration, his subject being: "Paving and Policing the Road to Jericho." Bernard has made good all along the line and his friends here are proud of him. He will return to the University again in September and take up the study of law, which he has chosen as a profession.

Messrs. A. D. Carmichael, A. D. Campbell and C. B. Dunn, trustees of the Chipley High School, went to Vernon Monday and appeared before the County School Board in the interest of our splendid school, asking an increase in the appropriation for this school, so that two more teachers could be secured for the 1911-12 school. We are glad to say that the Board was favorable to the proposition, after the matter was fairly presented to them. So the Chipley High School, which is the best in West Florida, will now have a faculty of ten teachers, instead of eight as heretofore. The gentlemen of the board of trustees have the interest of the Chipley High School at heart and are always watching for an opportunity for improvement. And credit should also be given the County Board of Public Instruction, too, for in assisting this splendid school it not only benefits, locally, but it reflects credit and gives better educational advantages to the whole of Washington county.

## The First National Bank, of Chipley.

CAPITAL, - - \$50,000.00  
SURPLUS, - - \$20,000.00

### Appreciation.

This Bank values the business it receives from its customers and takes every opportunity of telling them so. Our customers on the other hand appreciate the fact that the service extended to them is coupled with security. Any business arrangement to be permanent must be mutually satisfactory and profitable. Therefore, in selecting of your bank, have permanency in view and establish yourself for your present and future well-being with a good sound bank.

E. Meade Wilson of Jacksonville, one of the State's prominent life insurance men, was here a day or two last week the guest of his father, Dr. F. C. Wilson, and family.

Mrs. A. Nowlin of California, came in few days ago for a visit with her son, A. E. Nowlin, and family. Mrs. Nowlin was a resident of Chipley several years ago, and will be remembered by many of our citizens.

Charlie Setterlind, mine host of the Oaks Hotel at St. Andrew, was the guest of friends here Saturday night and Sunday. His friend were glad to cross palms with him again, as Chipley was his home for several years.

5 or 6 doses of "666" will cure any case of Chills and Fever. Price 25c.
